An exhibition to improve processes efficiency

THE BIGGEST MANUFACTURING EVENT IN MEXICO!

EXPO MANUFACTURA™ 2010 has established itself as the leading exhibition for the manufacturing industry in Mexico. For 14 years, it has been bringing national and international companies together, offering industry solutions in:

- Manufacturing
- Pre-forming
- Cutting
- Machining
- Laser Technology
- CNC
- Automation
- Soldering
- Aerospace
- Aeronautics
- Medical Devices
- CAD CAM
- Quality Control
- Metallurgy
- Assembly
- Automotive Industry
- Electronics
- Iron and Steelwork
- Production
- Metal Forming
- Stamping
- ...and many more

EXPO MANUFACTURA™ is an international business forum that brings the manufacturing industry together every year. The northern region converges to offer a complete range of specialized tools for the manufacturing industry, showcasing machinery, equipment and raw materials, as well as the best in plant technology and industry solutions.

The north
is where
more than 80%
of manufacturing in
the Republic of Mexico
takes place.

The development of more efficient and less expensive production processes to increase the competitiveness of Mexican manufacturing is represented by the wide range of national and international exhibitors that EXPO MANUFACTURA™ 2010 brings together in a "hands-on", face to face, business environment.

The perfect place to benefit from the North American market and the Mexican workforce.

The community of professionals looking for the best offers and innovations in machinery and systems for their companies' production processes will be waiting to meet you face-to-face and talk business.

- More than 9000 professionals from large, medium and small businesses looking for industry solutions
- 3 days of real business
- 93.66% of visitors are swayed or make the decision to purchase machinery
- Trends, machinery and processes for the automotive, aeronautical, aerospace, electrical appliances and medical devices industries, among others
- A meeting place for experts in manufacturing processes
- Over 350 companies representing more than 600 national and international brands
- In 2010, EXPO MANUFACTURA will include a new section on products and services for electronic cable assemblies, cord sets, wiring harnesses and other products within the wire processing industry

Get your equipment, materials, technology, machinery and services seen by industry professionals and decision-makers!

14 years
of bringing the
community together
to do
**BUSINESS
BIG STYLE**

Recently, the manufacturing industry in Mexico has faced challenges such as the global economic situation, correct cost management, global competition (especially from countries in Asia), and a lack of structural change Mexico. Despite each sector being affected in different ways, the majority of organizations are seeking to maximize their business opportunities.

EXPO MANUFACTURA™ has become the perfect place to establish contacts with international companies who are looking to break into the Mexican market. This is because it is the only event that brings together the most influential community in this sector.

Every year, we put a lot of effort into making the event the best gathering of businesses in the industry and we have succeeded in encouraging companies like yours to choose us, confident that the results they achieve will outshine any other strategy.

**Make the most of these advantages and maximize your sales
by taking part in EXPO MANUFACTURA™ 2010!**

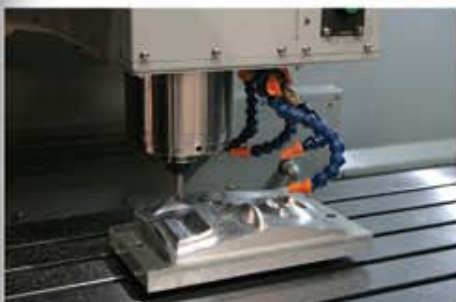

VISITOR PROFILE

Professionals involved in the specification and purchase of machinery and technology for their manufacturing processes:

- Presidents
- General managers
- Production managers
- Regional managers
- Engineering managers
- Departmental managers/Supervisors
- Plant engineers
- IT managers
- Production/Operations
- Sales
- Independent professionals
- Salespeople/Purchasers

All these professionals will be face-to-face with your product!

...Your competitive edge will shine through!

Book your space today!

Recognition that will set you apart

We have alliances and support from the leaders in the Industry

EXPO MANUFACTURA 2010 will have the support and has alliances from the leading international and domestic organizations such as AMT (The Association for Manufacturing Technology), CAINTRA Nuevo Leon, the US Commercial Service, ITEMS and ANIPAC, together these organizations and EXPO MANUFACTURA will reach out to a wide audience to ensure the quality of the visitors

These are some of the products which will be of interest for the attendees, Is your company a producer of any of these?

Machinery tool assembly

Tools and accessories

Storage

Soldering equipment and systems

Software based administration systems

Mechanical powered transmissions

Cleaning and sanitizing equipment and accessories

Industrial electrical systems

Plant engineering systems

Security products

Water treatment

Protective coating and erosion control

Liquids management / pneumatic equipment

Metal forming

Stamping

Electronic cable assemblies

Cord sets

Wiring harnesses

...Among many others
